

Information on lay-bys with facilities – Kirkby Stephen area

Toilet facilities are provided a few days before the Fair for use by those travelling to the Fair at the following lay-bys:

- Belah lay-by, Brough Sowerby, Kirkby Stephen on the A685 as shown below on the top map. Please note that there is no parking available beyond the actual layby area, ie parking does not extend over the river bridge or along the road that leads down to the River Belah bridge on the North side of the layby;

- Jubilee layby will not be available in 2023. The use of the area has changed and the access required now means it is no longer a tolerated stopping location. People who have previously used the layby will need to make alternative arrangements in 2023. Those with horse drawn bow tops may need to consider their route as the layby is not available and may need to make suitable resting arrangements before embarking on the journey down the hill from Ash fell into Kirkby Stephen.

Please note that for road safety reasons restrictions will be in place along the A685 (Brough to Kirkby Stephen).

- Bin bags will be provided at these locations, please keep the area clean and tidy, bag all your rubbish and leave by the side of the road for collection.
